

WE'RE GROWING! ASSISTED LIVING SERVICES EXPANSION

Building on our strong foundation of high-quality & client-centered care, Lumacare is excited to announce that we will be **expanding our Assisted Living Services (ALS) program as of Thursday, October 26, 2017.**

With this expansion, Lumacare is now serving 476 vulnerable seniors through our Assisted Living Services Program.

ALS PROGRAM HIGHLIGHTS

- Personal support and homemaking services
- Medication management
- Wellness classes
- Security checks
- 24/7 support available

WHAT IS LUMACARE'S ASSISTED LIVING SERVICES PROGRAM?

Our Assisted Living Services program provides 24/7 in-home support to high risk seniors living within the community whom reside in apartment buildings and homes within a certain distance from the program Hub site. Our goal is to support our clients in order for them to remain independent and safe in their home environment for as long as possible. ALS clients have complex needs and often face a number of challenges such as social isolation, decreased mobility and chronic diseases.
